Highlander-CS™ Strength, Beauty and Value

Rugged durability coupled with timeless quality, the trademark of the Scottish Highlands. Malarkey Roofing Products has combined both quality and affordability with lasting beauty in its Highlander-CS premium laminated shingle.

Built with the strength of a highland castle, the Highlander-CS protects your home while providing the distinction, security and value that are prized by today's homeowner.

The rugged beauty of the Highlander-CS eight contemporary colors provide contour and highlights to your roof, adding visual appeal and complementing the design of any home.

To achieve this look, Malarkey uses only 3M™ colored roofing granules. 3M has set the standard of quality and performance. 3M specially selected rock is coated with long-lasting colored ceramic to provide the finest barrier to harmful UV rays of the sun. The colorfast coating provides many years of rich color to assure the look of your roof endures.

Produced with the finest raw materials, the Highlander-CS features Malarkey's own fiberglass mat. This fiberglass mat, a product of decades of research and development, forms the tough base that a roofing shingle requires. The mat is then coated with the finest roofing asphalt to ensure the quality of your roof.

It is a Malarkey tradition to stand behind the quality and value of our roofing products. It shows in Highlander's 30-year product warranty, 70 mph wind warranty, 3-year Right Start warranty*, and Your Choice Warranty Program. Complete replacement coverage and transferability for the first three years accompanies Malarkey's 3-year Right Start warranty.

All shingle colors available featuring the 3M™ Scotchgard™ Algae Resistant Roofing System.

One of the most critical elements of a successful roofing project is the correct installation of the shingle. Market research has shown that most laminated shingles are incorrectly installed due to improper fastener placement. The Highlander is constructed using patented Zone technology which provides many features, including a nailing area up to 3 times larger than older style laminated shingles. This larger nailing area dramatically improves correct fastener placement.

Selecting a new roof is not an everyday occurrence. Your home is a major investment which the Highlander-CS is constructed to guard and enhance for years to come.

Malarkey's Highlander-CS shingles meet or exceed the following technical standards and conform to the following properties:

- Malarkey Fiberglass mat
- 30-year Limited Warranty
- 70 mph Limited Wind Warranty
- Your Choice Warranty Program
- 3-year Right Start Warranty
- Class "A" Fire Rating
- 8 Contemporary Colors
- 3M Roofing Granules for UV Protection
- Equipped with THE ZONE, US Patent nos. 614265, 6397546; Canadian Patent no. 2,277,494

Test Standards

- WH Class A Fire Rating
- ASTM D 3161 Type 1
- ASTM D 3018 Type 1
- ASTM D 3462
- ASTM E 108
- CAN/CSA A123.5 M90

*See Malarkey Highlander-CS warranty for complete details.

Note: Sample pieces or photographs of shingles may not accurately represent the true color level or variations of color blends that will appear on the roof. Before installation, five or six shingles should be laid out and reviewed for conformity to desired color level. If color levels are unsatisfactory, advise your dealer before proceeding with installation. Colors and specifications subject to change without notice. "3M" and "Scotchgard" and the Scotchgard logo are trademarks of 3M. Limited warranties carry terms and conditions. Contact your nearest Malarkey source for further information.
